BEHIND THE FRONTLINERS

OUR PANDEMIC STORY

Kuching Event Rental has been given the opportunity as an event contractor for the rental & setup of fixtures to fully equip the Covid-19 Pusat Pemberian Vaksin (PPV) vaccination centre, including the Quarantine Center and shopping malls under the Pusat Pemberian Vaksin Industri (PPVIN) initiative. We have delivered to the areas of:

- 📍 Kuching**
- 📍 Asajaya**
- 📍 Munggu Lallang**
- 📍 Lundu**
- 📍 Sebangau**
- 📍 Gedong**
- 📍 Bau**
- 📍 Sebuyau**
- 📍 Miri**
- 📍 Kota Samarahan**
- 📍 Simunjan**

Our rental assets include:

Laptop & Computer System

Internet & Telephony System

Printer & Copier Machine

PA System & Portable Speaker

LED TV & Display System

Partition Booth System

Industrial Fan & Air Cooler

Suntent & Canopy System

Table & Chair

Despite event production being a 'high risk' industry, our total assets and services have supported a total number of

Kuching Event Rental are still on the expansion plan to scale up our business by procuring more assets for future opportunities

DIVERSIFY
SCALE UP

Positive outcome post-pandemic and future opportunity includes:

State & General Election

Post-Covid Boom Hybrid & Virtual Event

GOING BACK TO BASIC

OUR PANDEMIC STORY

When Covid-19 hits the event production industry in the early year 2020, many event company had to pause-stop their business operations and reshuffle or exercise retrenchment. Event production industry employs people with very specific niche talent and skillset and we understand the need to retain our employees. While a lot of businesses are pivoting their new strategy and diversify by going on-line, Perna Media System Sdn Bhd did the unpopular decision by going off-line, back to basic

KUCHING
CARPENTRY
ELECTRICAL

IN-HOUSE PRODUCTION DEPARTMENT

We upgraded our old machine

Procured a new machine

And start a new business

Before the pandemic, Kuching Event Rental has been active in the social event field specialize in crafting props, decorations, building stage, rostrum for events, fabricating structured backdrop & special booths design for road shows & exhibitions. Our new high investment are to specifically targeting the growing cabinetry and furniture industry to fill the gap of high demand carpentry works, event production company are able to perform better as we have the delicate skills in decoration works and we are used to be very productive beyond working hours. We continue to maintain our talents and employment while generating revenue during Covid-19..

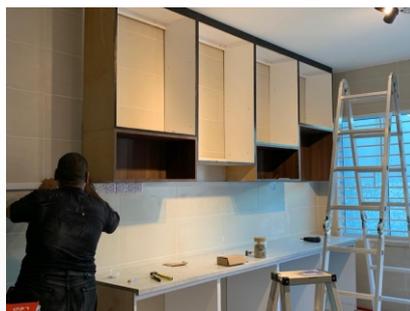

TV STUDIO

DECORATION

RENOVATION

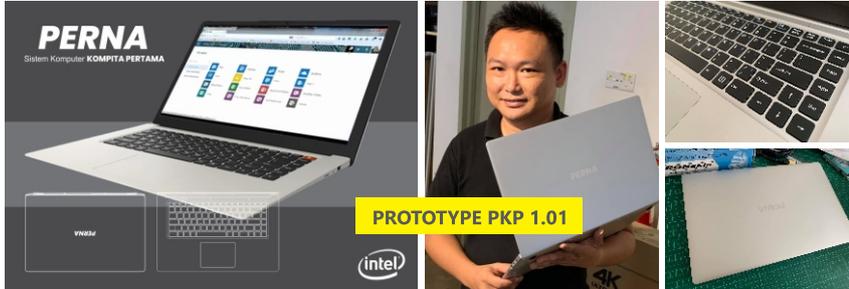

We wish to thank all our stake holders for the continuous support

ONE STEP BACK, TWO STEP FORWARD

OUR FUTURE STORY CASE STUDY

While our in-house Production department took one step back to maintain employability, Our Events & IT department took a higher risk to the next level. Like many businesses who adopt technology during the pandemic, we are preparing ourselves for the future by developing new technology for the people with virtual & hybrid events expected in *post-Covid19 Boom*. This entrepreneurial leap is in line with our company mission to nurture talent & skill

The idea begin during early year 2020 during the pandemic lockdown to build our own next generation computer laptop as rental asset.

The first product mould *PKP 1.01* was designed using low cost computer electronics chipset on 11 April 2021 as the first prototype

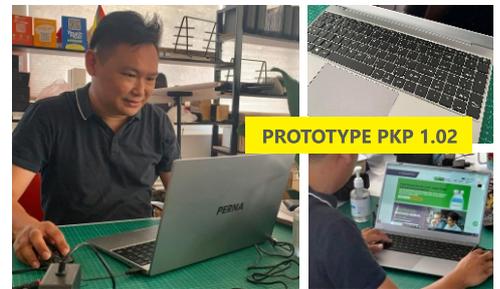

A product canvas was done to analyze our true purpose, the product goal & value, hence a new prototype was re-developed with an ODM partner as our new key resources . With very limited funding due to slow business growth during the lockdown, the second prototype *PKP 1.02* was only materialized on 2 June 2021 It was build to focus on the specific key criteria:

 Full keyboard for desktop experience

 Bigger & wide screen for better visual experience

 High processor for better performance

 Higher memory capacity for multi tasking & editing software

Eyeball looking downwards without full display

Natural eye ball with natural full display

wide 15.6" IPS screen, full keyboard with backlit, high definition sound, quality webcam & HDMI-A output

The next and final problem in our product design was the external display and the webcam input. With more meetings & webinar conducted online, many existing webcam are positioned on top of the screen with one common problem. A new design under new model *PKP 1.03* had the webcam design at the bottom. Keyboard backlit was also added for night experience and HDMI type A port are featured in this final product design to support external display powered by Intel® Iris® Plus Graphics

On 17 July 2021, we have successfully build a minimum viable product (MVP). This third prototype will be our final sample featuring Intel® Core™ i5 Processor, 8GB RAM, 512GB SSD, 4 USB Port

To launch this product, we will need a substantial asset funding through banks (SME Loan) or peer to peer debt funding (P2P) or equity crowd funding (ECF). To request a full version of pitch deck and SWOT analysis, kindly contact technical R&D

To ensure our product are safe to use, the final sample will soon undergo SIRIM & MCMC certification together with intellectual property registration in progress via MyIPO

ALBERT LAI
